

Tiny But Mighty!!!

CNet's Wireless-N Pico 3.5G Broadband Router, CQR-981, delivers good connection and all powerful functions in a mini pad.

Hsin-Chu, Taiwan, Oct 05, 2010 - We live in an age of endless information exchange, and continuous broadband connection had become the basic request in our daily life. Many electronic devices around us nowadays are Wi-Fi capable and ready for Internet accessing. From Ethernet cables to 3G mobile, people need a simple way to ensure the broadband connection is always there and is good for sharing among devices.

For business people, it is even more serious to guarantee they have an always on-going broadband accessing. Travelling around the globe, there is zero tolerance for any trouble delaying important business communication. Business people need a device that will always easily deliver good broadband connection that can be shared among communication devices and is simple-to-use, easy-to-carry, possibly in good style. Knowing the customers, these above are the very core concepts when CNet designed the Wireless-N Pico 3.5G Broadband Router "CQR-981".

CNet Wireless-N Pico 3.5G Broadband Router

CQR-981

Whether it is by 3G, Wi-Fi or even ADSL, with "CQR-981", this light weight tiny router will deliver simple & good broadband connection and many extra satisfying functions. Its mini USB charging socket works great to avoid troubles of finding power outlet everywhere you go. Simply use it and charge power on

your laptop, PC or even car charger. CQR-981 is equipped with advanced security mechanism of WEP 64/128, WPA, WPA2, WPA2 Mixed, easy security from WPS button, and practical virtual security feature from multi-SSID. You can get good & easy data protection by simply clicking the WPS button and setting security level for various users while sharing your network. The convenient 3 modes selection hardware switch (router / access point / Wi-Fi access point) enables easy and quick configuration for advanced user settings.

If you need a quick-to-set, easy-to-carry and secured broadband network with you, CNet's CQR-981, Wireless-N Pico 3.5G Broadband Router, is your top selection which guarantees always on connection with good performance and satisfying functions economically.
