

ORDERING INFORMATION

Model	Description
CDA-140	14dBi Directional Antenna
CAC-03	3 meter cable, N-Plug to RP-SMA
CAC-05	5 meter cable, N-Plug to RP-SMA
CAC-08	8 meter cable, N-Plug to RP-SMA

CDA-140 – 14DBI DIRECTIONAL ANTENNA

Extend your Wireless network coverage now! CNet's new range of Outdoor Patch Panel Directional Antennas provide an extended range solution for your wireless-b/g Router and/or Access Point. Adding this antenna to your CNet Wireless Router with detachable Antennas will help improve signal strength quality while increasing the total coverage area.

CNet Outdoor Antennas are well protected by UV resistance plastic materials and stainless steel. CNet antennas are designed with wall and pole mounting types for installation at your convenience. To adjust, simply tilt up or down the angle to get a better signal quality.

KEY FEATURES

- Wall mounting
- Compliant with AP/Router with N-Plug Connector
- Extended wireless network coverage up to 1.4Km.
- Easy installation
- Save space and cabling cost

SPECIFICATIONS

Product Name	14dBi Directional Antenna
Model Name	CDA-140
Frequency Range	2.4GHz ~ 2.5GHz
Gain	14dBi at 2.45GHz
Storage Temp	-20°C ~ +80°C
Operation Temp	-10°C ~ +60°C
Cable	45cm / Fixed
Impedance	50Ω
Polarization	Linear Vertical
Dimensions	262 x 240 x 32 (mm)
Connector	N-Jack
Radiation Pattern	Directional
