

Model	Description
CNP-410s	Parallel Port 10/100Mbps Ethernet Print Server

CNP-410s is a pocket-sized one port print server, which allows user contact a parallel port printer into their network. This print server compatibles with the most common network protocols such as TCP/IP, IPX, NetBEUI, AppleTalk, LPR, and so on. The POST (Power-On-Self Test) will provide self diagnostic to solve the network implementation problems. Also, the firmware upgrade mechanism to provide CNP-410s supports the latest version of printers. In order to reduce on-side support, CNP-410s provides Web-based management mechanism to allow MIS to control and monitor network printer from IT department.

Key Features

- One parallel port printer connected in a box to reduce desktop computer utilization
- Supports Web-base management to centralize the office printing service
- Increasing the efficiency, but reduce deployment cost and network printing hassle

SPECIFICATIONS

Interface	One DB-36 Centronic port support bi-directional communication and one 10/100Mbps auto-sensing RJ-45 connector
Easy-to-use Setup Wizard	Yes (Windows-based Setup CD)
Network Operating System Support	Windows 95/98/98SE/Me, Windows NT 4.0/2000/XP/2003, Mac OS 8.1 or higher, UNIX/Linux, NetWare (Bindery/NDS)
Network Protocol Support*	TCP/IP, IPX, NetBEUI, AppleTalk, LPR
Internet Printing Protocol (IPP) Support	Yes
Windows Print Monitor Technology	Yes
DHCP (client) Support	Yes
Print Job Log	Yes
Management	1. Web interface 2. Windows-based Setup Program
Software Upgradeable	1. Web interface 2. Windows-based Setup Program 3. TFTP
SNMP & HP Web JetAdmin Support	Yes
Dimension	55.5 (Length) x 52 (Width) x 22(Height) mm
Weight	42g (Device Only)
Power Supply	3.3V, 2A
Regulatory	CE / FCC Class B
Operation Temperature	0 ~ 50°C; Storage : -5 ~ 65 °C
